C.S.L. continually engages in research related to product improvement. New materials, production methods, and design refinements are introduced into existing products without notice as a routing expression of that philosophy. For this reason any current C.S.L. product may differ in some respect from its published description, but this will always equal or exceed the original design specifications unless otherwise stated.

Any person using equipment sold in this price list is personally responsible for obtaining expert instruction in its use, for learning the proper techniques involved, assumes all risks, and accepts complete responsibility for any and all damages and injuries of any kind.

This price list does not provide instruction, and is no substitute for personal instruction by qualified persons well versed in all appropriate safety techniques. All information in this price list, pertaining to the equipment or its use, is provided solely to assist the customer in making purchasing decisions.
